Mr. Sergei Levteev
Chief Executive Officer
International Business Alliance (IBA)

Dear Mr. Levteev,

In 2012, the Belarusian State University of Informatics and Radioelectronics (BSUIR) organized the seventh Championship of BSUIR in Olympic (sport) Programming. For the second consecutive year, the championship was open for students of all educational institutions of the Republic of Belarus.

The championship is growing in popularity. This year, 91 teams from all regions of Belarus were involved.

The key objectives of the championship are to improve proficiency of local students, train them for international programming contests, and increase their interest in programming and the IT industry at large.

IBA has been supporting the BSUIR championship since 2006. The assistance enabled student teams to participate in prestigious international competitions in programming, raising their professional level and representing the university with dignity.

On behalf of the Organizing Committee, I would like to express gratitude to IBA Group for the support of the Olympic movement in programming. I look forward to further mutually beneficial and fruitful cooperation.

Sincerely,

Boris Nikulshin
Chairman of the Organizing Committee
Championship in Olympic Programming,
Provost for Educational Work and Informatization
Belarusian State University of Informatics and Radioelectronics
