

IBA Group Wins European Software Excellence Award

On March 1, IT Europa, a leading European IT publisher and market intelligence organization, announced the winners of the European Software Excellence Awards 2012. Entries from 18 countries were submitted by Independent Software Vendors (ISVs) and a total of 36 companies from 14 countries made the finals. The contest was conducted for the fourth year. However, this year IT Europa separated the European Software Excellence Awards from the European IT Excellence Awards, establishing awards specifically for software developers.

IBA Group applied in the categories *Information Management* (Database Solution) and *Vertical Market* (Enterprise Solution), and its Database Solution was selected a winner. IBA Group entered the contest for the fourth time and became a winner for the second consecutive year.

IBA Quality Director Wins Best Quality Manager 2011 Award

Zinaida Larionova, IBA Quality Director, was named a winner of the contest *The Best Quality Manager 2011*. Organized by the State Committee for Standardization of the Republic of Belarus, the competition is aimed at recognizing excellence in quality and system management, raising the competitive edge of Belarusian products and services, and promoting the implementation of quality management systems at Belarusian enterprises.

BPS–Sberbank Thanks IBA

IBA received a letter of thanks from BPS–Sberbank owned by Sberbank of Russia, the largest lender in Russia and the CIS. IBA completed a pilot project on the implementation and adjustment of an electronic document management system (EDMS) and electronic document archive (EDA). The project is based on Chancellor, the IBA proprietary software, and is implemented at the bank's administrative department and 40 bank branches.

IBA Conducts Training in IBM Telelogic DOORS

On March 6, IBA conducted a seminar entitled *Management of Software Requirements. IBM Telelogic DOORS*. The seminar is a part of a training series organized by High–Tech Park, the Belarus' Silicon Valley. The series of free workshops in various IT disciplines is intended for higher educational teaching personnel of Belarusian universities.

IBA Group Appointed as Splunk Premier Reseller Partner

In December 2011, IBA and Splunk Inc. concluded a partnership agreement. Following the conclusion, Splunk appointed IBA as its Premier Reseller Partner. Splunk is a developer of a software product designed for intelligent processing of machine data. The software enables users to troubleshoot problems and quickly investigate security incidents. In addition, Splunk monitors end–to–end infrastructure to avoid service degradation or outages.
