

IBA Group Launches Newly Designed Website

IBA Group launched a newly designed company website at www.ibagroupit.com. Available in English and German, the website is rich in multimedia features, including a video clip, an interactive game, an animation cartoon, and a dynamic service list. IBA Group devoted the new website design to its 20th anniversary that the company will celebrate in April, 2013.

IBA Certified to ISO/IEC 27001:2005

In December, IBA Minsk certified its information security management system applied to R&D, software design, development, production, maintenance, integration, installation, and customization of computer software to STB ISO/IEC 27001-2011 that is identical to the international ISO/IEC 27001:2005 standard.

IBA Teaches BI to University Students

On December 7, a group of students of the Belarusian State University (BSU) successfully completed an IBM Cognos BI course that IBA experts held at the IBA-BSU IT Competence Center. The course was organized for the third- and fourth-year students from the faculties of physics, applied mathematics and computer science, and mathematics and mechanics.

IBA Group Sponsors ACM ICPC Quarterfinals

From October 23 to October 24, a quarterfinal of the ACM International Collegiate Programming Contest (ICPC) among university students of the Western Region was held in Minsk, Belarus. Fifty-seven teams from Belarus, Estonia, Latvia, Lithuania, and Russia competed in programming. IBA has been providing technical and financial assistance to Belarusian student teams that participate in the ACM ICPC since 1998. A team of the Faculty of Applied Mathematics and Informatics of the Belarusian State University became the winner of the quarterfinal.

IBA Releases Alfa Click Solution

Alfa-Bank (Belarus) announced the release of the innovative product *Alfa Click* developed by IBA. Based on the IBA Internet Banking system, Alfa Click is an online banking system that provides clients with secure 24/7 access to their bank accounts and allows for convenient and safe banking transactions on the internet.

IBA Presents Cloud Chancellor

The new IBA's product *Cloud Chancellor* is designed to automate workflow and document archiving at an organization. Using its centralized IT infrastructure or a leased infrastructure, a company is able to create an online service of electronic document management (EDM).

IBA Training Center Joins Cisco Expo Learning Club

The IBA Training Center joined Cisco Expo Learning Club, an education project that brings together more than 10,000 network professionals from different countries. As a result, the IBA Training Center is authorized to provide training in project implementation, network deployment and support, and network infrastructure management, as well as to prepare attendees for Cisco certification examinations.
