

## IBA Group Celebrates 20 Years and Opening of IBA UK in London

On September 10, IBA Group hosted an event in London to celebrate its 20th anniversary and the recent opening of IBA UK, the company's office in Great Britain. The program of the event included presentations by Sergei Levteev, IBA Group Chairman, and Martyn Hart, Chairman of the National Outsourcing Association. The main attraction of the evening was a contest of journalists and analysts to predict the IT outsourcing trends in the next 20 years.

## IBA Group Named to Software Magazine's Annual Software 500

*Software Magazine* included IBA Group in the Software 500 ranking of the world's largest software and service providers, now in its 31st year. IBA Group was ranked 286, with a total software and services revenue of \$90.2 million. In 2012, IBA Group was ranked 288 with software revenue of \$84.4 million. "The 2013 Software 500 results show that employment in the software and services industry was very healthy, increasing 9.5 percent to total Software 500 company employment of 4,924,121", said John P. Desmond, editor, *Software Magazine*. "At the same time, overall revenue was up four percent from last year to \$672.9 billion", he added.

## IBA CZ Trains University Students at Software Summer Camp

From September 2 to September 5, IBA CZ held the seventh annual Summer Camp for students of the Faculty of Informatics of the Masaryk University, Czech Technical University, and Brno University of Technology. Experienced professionals from IBA CZ conducted training in IT disciplines, system analysis, and project management.

## Belarusian University Students Receive IBM Certificates

On June 27, students of the Belarusian State University of Informatics and Radioelectronics (BSUIR) who completed training at the Academic Center of IBM Competences received IBM certificates. Focused on a comprehensive vision of the software development process, the course was devoted to software requirement management using IBM Rational DOORS and application development using SOA. IBA Group created the Academic Center of IBM Competences in 2012 in cooperation with BSUIR.

## SAP and IBA Group Meet with Belarusian Students

On September 25, IBA Group and SAP CIS held a meeting with students of the faculties of Applied Mathematics and Computer Science, Mechanics and Mathematics, Economics, and International Relations of the Belarusian State University. The meeting was organized within the SAP University Alliance partner program. With support from IBA Group, BSU joined the program in 2012.
