IBA Group Wins Global Sourcing Association Award

On October 6, the Global Sourcing Association (GSA), formerly known as the European Outsourcing Association (EOA), announced the winners of the 2016 GSA Awards. IBA Group was selected the winner in the category *Award for Corporate Social Responsibility* (CSR) with the project *Promotion of IT among People with Disabilities*.

IBA Group Project Receives SAP Quality Award 2016

The SAP project that IBA Group implemented at Gazprom Transgaz Belarus won a Bronze SAP Quality Award 2016 in the Fast Delivery Category among CIS companies. The electronic document management (EDM) system designed and implemented within the project automates equipment maintenance and repairs at Gazprom Transgaz Belarus. Based on SAP and OpenText, the solution provides a fivefold increase in the efficiency of information search.

IBA Group Named to Software Magazine's 2016 Software 500

Software Magazine included IBA Group in Software 500, a revenue-based ranking of the world's largest software and service providers. Ranked #281 (301 in 2015), IBA Group has been selected for Software 500 since 2008.

IBA Group Implements Currency Redenomination Projects

The recent denomination of the Belarusian currency involved major reconfiguration of the software functioning at Belarus-based legal entities. Belarusian Railway, Gazprom Transgaz Belarus, and other organizations selected IBA Group to conduct data conversion for their information and management systems. Simulating the situation at the IBA Data Center, IBA Group developed different scenarios to prevent contingencies and implemented data conversion using the euro transition methodology recommended by SAP SE.

IBA Group Launches Mobile Acquiring Service

On October 3, IBA Group launched a new service of mobile acquiring called *payBYcard*. The service enables bank clients to make payments using smartphones or tablets and a mobile point of sale (mPOS) connected via Bluetooth. payBYcard accepts all major types of cards, including Visa, MasterCard, and Belkart.

IBA CZ Expands its Service Portfolio

IBA CZ, a member of IBA Group, announced the expansion of its service portfolio that includes CRM, Identity Management, Business Intelligence, and Big Data. Portal solutions, document management, mobile applications, and other traditional areas were also enhanced to include MS SharePoint, NodeJS, and other technologies.

IBA and AUCA Launch Corporate Information System

IBA Group received a reference from the American University of Central Asia (AUCA), following the successful implementation of a SAP ERP system at the university. AUCA invited IBA Group to join the project at the go-live stage, which required migration of the existing system to a new platform and support.
