

IBA Group and Belarus Shortlisted for 2016 EOA and NOA Awards

On August 19, the European Outsourcing Association (EOA) announced the names of the 2016 EOA Awards shortlist. IBA Group was shortlisted in the categories *Outsourcing Destination of the Year* (Belarus) and *Award for Corporate Social Responsibility* (CSR). On September 9, the National Outsourcing Association (NOA) of Great Britain announced the names of the 2016 NOA Awards shortlist. IBA Group was invited to participate in the NOA Awards following the nominations for the EOA Awards and was shortlisted in the same two categories. For the CSR awards, IBA Group submitted the project *Promotion of IT among People with Disabilities*, the first IT education project for disabled people in Belarus.

IBA Group Organizes SAP Summer School for Teachers

From July 6 to July 8, the Belarusian State University (BSU) and IBA Group conducted *SAP Summer School*, a free training in SAP for teachers. Held at the IBA–BSU IT Competence Center in Minsk, the training welcomed teachers from the CIS countries. BSU and IBA Group organized the SAP Summer School within the SAP University Alliances global program. This year, the summer training for the first time was held not in Russia but in Belarus. The key topics were SAP HANA Cloud Platform and Business Analytics based on SAP Lumira.

IBA Group Equips Belarusian Schools

On August 24, IBA Group held an opening ceremony of the computer classes in the Kamai and Voropaev secondary schools of Vitebsk Region. IBA Group equipped each of the key-ready computer classes with modern furniture, computers, and printing devices. The PCs include 2-core Intel processors with 4 GB RAMs and high capacity hard drives.

IBA Group Implements Online Client Repository in Leading Belarusian Banks

IBA Group implemented online repositories of client documents in major Belarusian banks. BelVEB Bank and BPS–Sberbank underscored IBA Group's professional excellence that enabled the banks to improve document management and to streamline EDM procedures.

IBA CZ Redesigns Its Website

IBA CZ redesigned their website <https://www.ibacz.eu/> that provides information about the company's new services, including CRM based on MS Dynamics, document management and portal development based on SharePoint, and identity management based on midPoint. The website was built using NodeJs, MongoDB, ReactJs, JQuery or Bootstrap, and other modern technologies.
