

July – September 2014

IBA Group Named to Software Magazine's 32nd Annual Software 500

Software Magazine included IBA Group in the 2014 Software 500 ranking of the world's largest software and service providers. This year, IBA Group ranks #277. In 2013 and 2012, the company was ranked 286 and 288, respectively. IBA Group has been ranked among the Software 500 companies since 2008 when the company applied for inclusion for the first time.

IBA Group Unveils New Website in German

IBA Group released a new version of a website of IBA IT GmbH, the IBA Group's representative office in Germany (<http://de.ibagroupit.com>). Earlier this year, IBA Group released a redesigned website of IBA USA (<http://us.ibagroupit.com>), the company's office in the United States.

SAP Certifies IBA Solution to SAP ERP HCM

On August 26, IBA IT Park, an IBA Group's development center in Belarus, received a certificate issued by SAP. SAP SE certified the ABAP software *Interface for SAP ERP HCM* (Human Capital Management), a localization extension for the Republic of Belarus 1.0. The IBA solution was certified for integration with SAP NetWeaver 7.00 via the SAP integration scenario ABAP Add-On Deployment for SAP ECC 6.0.

IBM Validates IBA Group's IAS Navigator

IBA Group successfully completed the *Ready for IBM Cloud and Smarter Infrastructure* software validation for IAS Navigator. Based on the native IBM Maximo platform, the Item Assembly Structure (IAS) Navigator is an IBA solution designed for navigation and accelerated search of items and their descriptions using graphical presentation of the assembly structure.

IBA - IBM Experience Sharing Workshop

The workshop of IBM and IBA was held on September 10 at the IBM premises in Frankfurt, Germany. Experts from both sides were able to gain insight in the 21-year history of cooperation between IBM GPSG and IBA, the largest IBM's supplier of software services in Europe. In addition, IBA told about their experience in cloud computing, social media, mobile applications, business analytics, big data, and SAP HANA, as well as in mainstream software trends to give momentum to the development of business relations between the two companies.

IBA Group Presents its AFC System

From September 29 to September 30, IBA Group participated in the Smart Ticketing & Transport conference held in Paris, France. IBA Group presented its Automated Fare Collection (AFC) system that is underway in the Minsk public transport. The system is operated in more than 2,500 transport vehicles. The AFC acceptance infrastructure comprises in total 20,000 card validators, paper ticket validators, and onboard computers. The POS (point of sale) network consists of 400 devices and 400 inspector terminals are used to check fares.
